The Problem We Solve

Workforce development agencies spend millions on fragmented

No Digital Hour Tracking

Apprentices still use paper logbooks

No

Em

Manual Billing

Payment collection is error-prone

Our Solution

One platform that manages the entire apprenticeship lifecycle:

AI Course Generation

GPT-4 creates courses in minutes, not months

Geospatial Data

GPS

Auto Payment Collection

Stripe integration with lockout enforcement

Real-time Data

30-Second Elevator Pitch

"Imagine if Workday Learning, ServiceNow, and a DOL-registered app were all on one platform. That's Elevate for Humanity.

We help workforce development agencies, employers, and job seekers manage their training programs, generate courses, automatic payment collection, geofenced time tracking, and more.

We're the only platform where an apprentice can clock in at their business, receive their license — all on one platform."

Elevate for Humanity

What Makes Us Stand Out

First-to-Market

Only platform with DOL + AI + geofencing + payments in one system

Real Impact

200+ apprentices already using the system in production

Compliance Built-In

WIOA, DOL, state board reporting automated

Microsoft Stack

Azure-native, TypeScript, Supabase

Social Mission

Workforce development for underserved communities
